OPTIONS & ACCESSORIES

SNOWEX[✓] LEADERS IN SELECTION

SnowEx offers a wide array of options and accessories to fit your specific job requirements.

				
ADJUSTABLE DEFLECTOR	WEATHER COVER	WEATHER COVER	FREE FLOW KIT	GATE ASSEMBLY KIT
ADF-020	EXC-020	EXT-020	FFK-020	GAK-020
Restricts spread pattern to prevent material waste. Also prevents vehicle damage by deflecting flying material.	Prevents moisture contamination into spreading material. Designed for utility spreader models.	Fitted tarp keeps spreading material contained and protected from outside moisture (rubber tie-downs included).	Allows adjustment for material flow rate to the auger to compensate for amount of moisture in the specific material and granular size (from coarse to fine).	Converts tailgate spreaders for use with granular and pelletized materials. Adjustable stainless steel gate regulates flow rate (10' cable included).

OPTIMUM FLOW KIT	VARIABLE SPEED CONTROLLER	VIBRATOR KIT w/ HARNESS	20' MANUAL GATE CABLE KIT	EXPRESS MOUNT KIT	EXPRESS MOUNT KIT
OFK-020	VAR-020	VBR-080	WTC-020	XMT-175	XMT-275
Vibrator along with a dual pitch baffle improves material flow and allows spreading of a 50/50 salt/sand mix.	Controls spinner from a weather resistant single controller located in the cab of the vehicle.	Assists in material flow. Ideal for non-free flowing material such as salt/sand mix, bulk salt or moist material (wiring harness included).	Extended gate cable for pickup-size application where standard 10' cable is not long enough (also works with GAK-020 gate assembly kit).	Subframe mounts to truck bed floor. Simple installation and removal. Mobile wheel attachment allows flexible storage.	Subframe mounts to truck bed floor. Simple installation and removal. Mobile wheel attachment allows flexible storage.
